

THE DUPONT™ CORIAN® TERRA COLLECTION

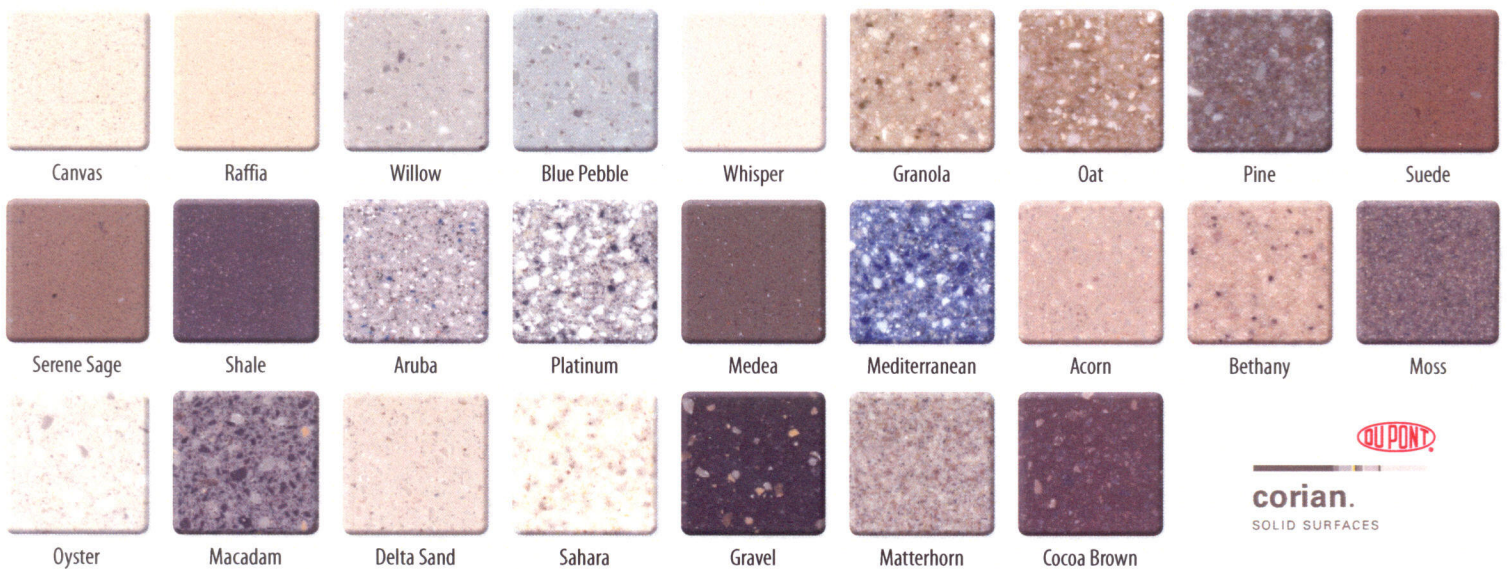

*Discover fresh colors from
recycled content*

Corian® is tough, thermoformable and beautiful. But it also contributes to sustainable design. It's naturally long lasting and easy to renew. It's GREENGUARD Certified®. And all the colors of the Terra Collection are certified (or pending certification) by Scientific Certification Systems (SCS) to contain recycled content. This collection may contribute to earning points under the LEED® Green Building Rating System™ developed by the U.S. Green Building Council (USGBC).

These 10 SCS Certified colors include a minimum of 13% pre-consumer recycled content.

These 25 SCS Certified colors include a minimum of 6% pre-consumer recycled content.
